Glidecath[®]

Hydrophilic Coated Catheter

YOUR PROCEDURAL SOLUTION FOR NAVIGATION AND SELECTIVITY

Determine the best approach to challenging lesions

- Navigate difficult vessel anatomy with smooth tracking facilitated by TERUMO Glide Technology™
- Leverage superior kink resistance to achieve ideal flow rates for diagnostic imaging^{1,a}

Single-braided

- Reach distal visceral vessels with best-in-class trackability^{1,a}
- Approach tortuous anatomy with best-in-class pushability^{1,a}

Double-braided

- Access and cross challenging lesions with excellent pushability and torquability¹
- Achieve superior device delivery through a nylon-rich inner layer^{1,a}
- Leverage superior kink resistance to maintain lumen integrity throughout the procedure^{1,a}

PUSHING BOUNDARIES

Terumo Interventional Systems is **committed to your success** with innovative procedural solutions and ongoing support for your most challenging cases.

We are relentlessly seeking new ways to help you apply effective solutions and achieve **better outcomes for more patients.**
